\* At Grade 9, you can use either Advanced 2 or TASK 1 level materials. The configuration of your school system may help you determine which level is more appropriate. If Grade 9 is part of your high school system and students' instruction is focused on high school level standards in Mathematics, Science, and Language Arts, use the TASK 1 level. If Grade 9 is part of your junior high school system and students' learning is based on standards for the end of junior high school, the Advanced 2 level is more appropriate.
