Bill graduated from Minnesota State University, Mankato with a bachelor's degree in sports management. He went on to obtain his masters in educational administration and a k-12 principal license. Cultural experiences with ADLs...

While at St. Catherine University, Kristin completed an independent study course on the Analysis of Environmental Influences on Occupation in a Third World Country where she collected and analyzed data about occupations in both rural and urban cities in Haiti. Kristin continued her interest in occupation and completed a master's thesis entitled *The Role of Occupation in the Cross-Cultural Adaptation of African Women Immigrants*. Both experiences gave her an intimate view of how occupation is related to one's well-being.
