# Overview

After you modify the parameters for a report, you may want to save them as a “customization” that you can use later with other tests or other types of reports. For example, if you use the **Spc. Code Filter** parameter to select only female students, you can save all the parameters, including this one, as a customization called “Girls.” Then, when you create another report, rather than set all the parameters again, you can use this customization. (For more information on customizing a report, refer to the document, *Viewing, Printing, and Customizing Reports.*)

## Creating a Customization

To create a Customization:

1. First, customize a report by making changes to the report parameters.
2. From the **Create Reports** page, choose **None Selected** from the “My Customizations” drop-down menu.
3. Click **Create/Edit**.

**Create Reports**

Test: SAT 10 Int. 1/A - Spring Compl. Batt.  
Test Date: Apr 29, 2009  
Reporting Group:  Student  Class  School  District  Multi-District  
Report Type: 1.0 Student - Profile  
Teacher Type/Location: Current Location  
My Customizations: None Selected **Create/Edit**  
Quick Reports: None Selected **Create/Edit**

Preview Report Set as Defaults Clear Parameters

**Report Parameters** Title on Report: Student Profile

Student	All	Letter	None Specified
Teacher	All	Statistics	Mean
School	All	Obj Cutoff	Less than 75%
District	All	Multi-Test	None Specified
Spc. Code Filter	None Specified	Spc. Code Display	None Specified
Subtests	All	Display Score	Raw Score
Scores	All	History	None Specified
Cutoff	None Specified	Cross-Tab	None Specified
Rank Order	None Specified	Gap Score	Selected

The Create/Edit a Customization page appears.

**Create/Edit a Customization**

**My Customization**

Customization Name:   Use as report title

Description (optional):

(You have  characters remaining.)

---

**Report Type Associations**

Apply customization to:  1.7 Student - Profile with Items only or  any report type

---

**Make this Customization Available to Other Tests (optional)**

Available for tests containing: Example: mcas,dibels,mat

Applicable tests:

4. Enter a name in the “Customization Name” text box. Click “Use as report title” if you want the title on the report to be this name also. Enter a description in the “Description” area.

**Create/Edit a Customization**

**My Customization**

Customization Name:   Use as report title

Description (optional):

(You have  characters remaining.)

5. By default, the Customization applies to any type of report. However, in the **Report Type Associations** section, you can make this Customization valid for only the currently selected report. To do so, click the button next to the report type name.

**Report Type Associations**

Apply customization to:  1.7 Student - Profile with Items only or  any report type

By default, the Customization will only be available for the currently selected test. However, in the **Make this Customization Available to Other Tests** section, you can make it

available for other tests. To do so, enter some text that is contained in the names of tests to which this Customization should be available. For example, if you want the Customization to be available to all sorts of English tests, you can enter “eng” in the text box. All current and future tests containing “eng” in their names will have this Customization available.

**Make this Customization Available to Other Tests (optional)**

Available for tests containing: Example: mcas,dibels,mat [View applicable tests](#)

eng

Applicable tests:

If you want to see which current tests have this text in their names, click **Show** to see a list of tests in the “Applicable tests” area.

**Make this Customization Available to Other Tests (optional)**

Available for tests containing: Example: mcas,dibels,mat [View applicable tests](#)

eng

Applicable tests:

English Final Grade 4  
English Final Grade 9

- Click **Save** to save the Customization and return to the **Create Reports** page.

## Using a Customization

To later use the Customization that you saved, select it from the **My Customizations** drop-down list on the **Create Reports** page.

Reporting Group:  Student  Class  School  District  Multi

Report Type: 1.0 Student - Profile

Teacher Type/Location: Current Location

My Customizations: None Selected

Quick Reports: None Selected  
Males Only  
SPED Students  
Underperforming

**Report Parameters** Title on Report: Student Profile

The report parameters associated with the Customization are automatically selected. You may customize them further or preview the report.

**Note:** Unlike Quick Reports, Customizations are only available to you. Others in your group do not have access to them.

## Deleting a Customization

To delete a Customization:

1. Choose the customization from the “My Customizations” drop-down menu.
2. Click **Create/Edit**.
3. Then click **Delete**. A message asks if you are sure you want to remove the Customization.
4. Click **OK**. The Customization is deleted.

## Renaming a Customization

To change the name of a Customization:

1. Go to **Select a Test for Reporting** and choose a Test Administration.
2. On the Create Reports page, choose the customization from the “My Customizations” drop-down menu.
3. Click **Create/Edit**. The Create/Edit a Customization page appears.

The screenshot shows a form titled "My Customization". It has two main sections: "Customization Name:" and "Description (optional):". The "Customization Name:" field contains the text "Girls Only" and has a checkbox labeled "Use as report title" to its right. The "Description (optional):" field contains the text "Selects only female students for the report".

4. Delete the current name and enter a different name in the “Customization Name” text box.

The screenshot shows the same "My Customization" form as above, but the "Customization Name:" field now contains the text "Females Only". The "Description (optional):" field remains the same with the text "Selects only female students for the report".

5. Click **Save** at the bottom of the page. The Customization is saved with the new name.

## Editing a Customization

To make any changes to the parameters associated with a Customization, follow these steps:

1. Choose **Select a Test for Reporting** from the top menu. Choose a Test Administration.
2. Choose the Customization from the “My Customizations” drop-down menu on the Create Reports page.

3. Make changes to the parameters or other options associated with the Customization.
4. Click **Create/Edit** next to the “My Customizations” drop-down menu. The Create/Edit a Customization page appears.
5. Click Save at the bottom of the page.

**Note:** If you click **Save As** instead of **Save** and you entered a new name, you will have two Customizations: a new Customization is created and the original remains as well.
